

Dwize

BORN AGAIN ONLINE

India's dependable operating year for serious businesses.

Dwize helps Indian MSMEs, professionals, family enterprises, consumer brands, and startups become clear, fast, trusted, and maintained online.

Clear business writing

Search-ready foundation

One Care Year

An Indian digital partner for businesses that need to be trusted online.

Dwize works for MSMEs, professionals, family enterprises, consumer brands, and startups that cannot afford a confusing public presence. The first job is simple: make the business easy to understand, easy to trust, and easy to contact or buy from.

We combine business writing, design, engineering, search foundation, and year-long care into one operating contract. You can start with Go, Site, App, Store, Brand, or Suite, but the standard remains the same: clear, serious, maintained online.

FOR MSMEs

**A serious surface
without confusion.**

The business gets a clear public place for customers who arrive from search, WhatsApp, social, referrals, or QR.

BY DWIZE

**Writing, design,
and engineering
together.**

The page is not just styled. The offer, proof, contact path, speed, and structure are shaped as one buyer experience.

ONE YEAR

**The work stays
cared for.**

The Care Year keeps updates, renewal terms, and handover clarity visible, so the business is not abandoned after launch.

Six clear ways to begin.

Every price below is GST inclusive. Choose by what your business needs today: one credible link, a complete website, an app, an online store, a premium commerce presence, or a custom business system.

FIRST TRUSTED LINK

Dwize Go

For a business that needs one clean public link for Instagram, WhatsApp, Google Business Profile, and QR.

₹8,990 / year

COMPLETE WEBSITE

Dwize Site

For a business that needs a premium website with pages, writing, search foundation, analytics, and care.

₹49,900 / year

CUSTOMER RETURN

Dwize App

For a business whose customers come back often enough to deserve an app on the home screen.

₹1,49,000 / year

ONLINE ORDERS

Dwize Store

For a business ready to sell through a managed catalog, checkout, UPI, GST-ready flow, and WhatsApp handoff.

₹2,99,000 / year

PREMIUM COMMERCE

Dwize Brand

For a premium consumer brand that needs web commerce plus its own iOS and Android shopping apps.

₹6,99,000 / year

CUSTOM REQUIREMENT

Dwize Suite

For workflows, dashboards, portals, integrations, or business systems that need a custom Dwize build.

₹14,99,000+ / year

Start with the version your business actually needs.

PACKAGE	BEST WHEN THE BUSINESS NEEDS	PRIMARY RESULT
Go	A first credible public link before a full website.	One clean destination for WhatsApp, social links, map, proof, and QR.
Site	A complete business website that can be found and trusted.	Pages, writing, search foundation, analytics, and managed presence.
App	Customers return often enough to deserve a home-screen relationship.	An app presence for service, catalog, content, booking, or community.
Store	The job is selling online with Indian commerce readiness.	Catalog, checkout, UPI, GST-ready orders, WhatsApp catalog, and order path.
Brand	A premium consumer brand needs owned shopping surfaces on web, iOS, and Android.	Store plus iOS and Android shopping apps with stronger operating care.
Suite	The requirement is too specific for a ready-made package.	A custom business system planned, built, and cared for by Dwize.

If the right answer is "not yet", Dwize says that before payment. The goal is the right first step, not the biggest bill.

The year after launch is part of the product.

A good online presence should not become old, broken, or confusing after launch. Dwize keeps the work alive through a written Care Year: updates, continuity, renewal terms, and handover clarity are known before you begin.

01

Same-price renewal

Year 2 renews at the first-year product price for the same tier.

02

Two-day update rhythm

Agreed content changes follow a written request-to-live rhythm.

03

Managed continuity

The business is not left with a launch file and no operating support.

04

Clean handover

Domain, content, catalog, customer data, and agreed exports remain portable.

Design, writing, search foundation, and care together.

Premium look and feel

The layout, mobile experience, page rhythm, and actions are shaped so the business feels serious.

Search-ready foundation

Page titles, descriptions, structure, performance, and search basics are prepared from the start.

Clear business writing

Dwize shapes the message so a potential buyer understands the business and knows how to act.

Visibility setup

Analytics, search visibility setup, and Google Business Profile alignment are included where the package requires it.

Managed updates

The Care Year gives the business a clear path for updates and ongoing continuity.

Indian buyer paths

WhatsApp, calls, maps, UPI, GST, catalog, and commerce handoffs are treated as real customer paths.

The value is not just a page on the internet. The value is how confidently a new customer understands your business, trusts it, and takes the next action.

From interest to paid order.

Dwize Store is for businesses where a customer should not stop at liking, asking, or saving. The path should make products clear, payment simple, and the next business action visible.

FIND

Traffic gets one serious place to land

Instagram, Google, WhatsApp, QR, referrals, and ads should point to a clear store surface instead of scattered messages.

BROWSE

Products are easy to understand

Categories, photos, prices, availability, policies, and trust cues are arranged so the buyer does not need to guess.

PAY

Payment feels normal for India

UPI, cards, netbanking, COD where sensible, and GST-ready order details are planned as part of the commerce path.

HANDOFF

The business knows what happened next

Order, inquiry, WhatsApp follow-up, invoice, and fulfillment context stay readable for the people running the business.

CUSTOMERS MAY ARRIVE FROM

Google

Instagram

WhatsApp

DWIZE MAKES THE ORDER PATH CLEAR

Catalog

UPI

Cards

COD

GST

WhatsApp

Browse, ask, pay, invoice, and handoff are arranged as one practical customer path, then kept cared for through the year.

Before ads or sales calls, the buyer path becomes clear.

Dwize turns scattered online attention into one maintained route: discover the business, understand the offer, take the next step, and know the surface will stay cared for.

WITHOUT A CLEAR SURFACE

Attention gets scattered.

People may see the business on Google, Instagram, WhatsApp, a referral, or a QR code, but still not know what to trust or do next.

WITH DWIZE

One maintained path carries the buyer.

The public surface explains the offer, shows proof, makes contact or purchase natural, and remains cared for through the year.

FIND

Every channel has one destination

Search, Google Business Profile, Instagram, WhatsApp, QR codes, referrals, and ads can point to the same dependable surface.

UNDERSTAND

The buyer gets the business faster

Services, products, proof, location, policies, and next steps are arranged so the business feels real and easy to evaluate.

ACT

The next action is not hidden

Call, WhatsApp, book, visit, browse, or order: the page is shaped around the action the customer should take.

RETURN

The surface does not go stale

Updates, continuity, renewal terms, and handover clarity stay visible through the Care Year instead of being forgotten.

01 / FIT

Choose only what the business can use now.

Go, Site, App, Store, Brand,

02 / BUILD

Make the surface clear, fast, and serious.

Writing, design, structure,

03 / CARE

Keep it maintained through one written year.
